Tutte le quote riportate nel presente listino sono espresse in mm se non diversamente espresso.
All the dimensions in this price list are in mm except as otherwise expressed.
Toutes les dimensions reportées dans le tarif sont exprimées en mm si aucune autre précision.

Le consegne dei prodotti Valsir vengono effettuate a confezione.

Eventuali richieste non corrispondenti saranno arrotondate, senza preavviso, alla confezione o multipla di essa.

Valsir S.p.A. si riserva il diritto di modificare in qualsiasi momento, le caratteristiche dei prodotti illustrati nel presente listino. I colori riprodotti nel presente listino sono indicativi.

Per conoscere le condizioni di vendita, i termini di garanzia ed esprimere il vostro giudizio di gradimento su Valsir, vi preghiamo di fare riferimento alla Carta dei servizi (fascicolo L02-416) o alla sezione "SUPPORTO" del sito web www.valsir.it.

Si invitano tutti gli utilizzatori a segnalare eventuali osservazioni.

Valsir products are delivered according to the package quantity specified in this price list.

Product requests not matching our package quantities will be rounded up, to the package quantity or a multiple.

Valsir S.p.A. reserves the right to modify the characteristics of the products shown in this price list at any time. The colours in this price list are shown for representation purposes only.

To learn more about our sales conditions, warranty terms and to send us your opinion of Valsir, please refer to our services Card (booklet L02-416) or the "SUPPORT" section of our web site www.valsir.it.

Please feel free to notify us your comments.

Les livraisons des produits Valsir sont effectuées au conditionnement complet.

Toutes commandes ne correspondant pas au conditionnement seront arrondies sans préavis au conditionnement supérieur.

Valsir S.p.A. se réserve le droit de modifier à tout moment les caractéristiques des produits présentés sur ce tarif.

Les couleurs reproduites dans ce tarif sont à titre indicatif.

Pour connaître les conditions de vente, les termes de garantie et exprimer son niveau de satisfaction sur Valsir, nous vous prions de vous

reporter au Document des services (fascicule L02-433) et à la section «SUPPORT» du site web : www.valsir.fr.

Nous invitons tous les utilisateurs à nous faire part de leurs éventuelles observations.

PEXAL®: IL SISTEMA MULTISTRATO D'ECCELLENZA

PEXAL®: THE MULTILAYER SYSTEM OF ECCELLENCE

PEXAL® : LE SYSTÈME MULTICOUCHE D'EXCELLENCE

CARATTERISTICHE

- Unisce i vantaggi tipici del tubo metallico con quelli del tubo plastico.
- Totale impermeabilità all'ossigeno grazie allo strato interno di alluminio.
- Un unico tubo per svariate applicazioni: impianti per distribuzione sanitaria, riscaldamento e raffreddamento ad alta e bassa temperatura e per distribuzione di aria compressa.
- Certificazione per il trasporto dell'acqua potabile.
- Elevato grado di igienicità.
- Temperatura operativa massima di 95°C e 10 bar.
- Reticolazione sia nella strato esterno che in quello interno.
- Velocità ed estrema facilità di posa in opera: una volta piegato il tubo mantiene la curvatura.
- È possibile curvarlo più volte.
- Disponibile in barre e in rotoli, anche con isolamento da 6 e 10 mm.

CHARACTERISTICS

- *Combines the advantages typical of metal pipes with those of plastic pipes.*
- *Total barrier to oxygen thanks to the intermediate layer in aluminium.*
- *One pipe alone for numerous applications: systems for water supply, high and low temperature heating and cooling and for the distribution of compressed air.*
- *Certification for transporting drinking water.*
- *Maximum hygiene.*
- *Maximum operating temperature of 95°C and 10 bar.*
- *Both the external and internal layers are crosslinked.*
- *Extremely easy and rapid installation: once bent the pipe remains in position.*
- *The pipe can be bent several times.*
- *Available in straight lengths and in coils and with 6 and 10 mm insulation.*

CARACTÉRISTIQUES

- *Réunit les avantages du tube métallique avec ceux du tube plastique.*
- *Imperméabilité totale à l'oxygène grâce à la couche interne en aluminium.*
- *Un tube unique pour différentes applications : installations sanitaires, installations de chauffage et de rafraîchissement à haute et basse température, installations d'air comprimé.*
- *Homologation pour la distribution d'eau potable.*
- *Qualité organoleptique.*
- *Température de service maximum de 95°C à 10 bar.*
- *Réticulation des couches internes et externes.*
- *Rapidité et facilité de mise en oeuvre : mémoire de forme.*
- *Cintrable plusieurs fois.*
- *Disponibles en barre et couronne : avec isolation 6 et 10 mm et gaine annelée.*

PEXAL[®] BRASS: RACCORDI A PRESSARE IN OTTONE

PEXAL[®] BRASS: PRESS FITTINGS IN BRASS

PEXAL[®] BRASS : RACCORDS À SERTIR EN LAITON

CARATTERISTICHE

- Doppio o-ring di garantiscono la massima tenuta idraulica.
- Boccia preassemblata sul raccordo, in acciaio inox AISI 304, con fori di ispezione.
- I diametri dal Ø 16 al 26 mm sono caratterizzati dalla possibilità di verificare la corretta installazione del prodotto, riscontrando la perdita di acqua dal raccordo qualora non correttamente pressato.
- I diametri dal Ø 16 al 50 mm sono disponibili con profilo multipressata per ganasce H, TH, U, C.
- Realizzati in lega speciale d'ottone resistenti alla corrosione.
- Possibilità di utilizzare il prodotto sia in impianti sanitari e sia in impianti di riscaldamento o raffreddamento.
- Speciale anello in PTFE per evitare corrosioni galvaniche fra tubo e raccordo.
- Ampia gamma di diametri dal Ø 14 al 90 mm.

CHARACTERISTICS

- Two o-ring seals guarantee maximum hydraulic tightness.
- Sleeve pre-fitted on the fitting in stainless steel AISI 304 with inspection holes.
- Diameters from Ø 16 to 26 mm are characterised by the possibility of verifying correct installation of the product, detecting a leakage in the fitting if the same has not been pressed correctly.
- Diameters Ø 16 to 50 mm are available with multipress profiles for jaws H, TH, U, C.
- Made of a special brass alloy that is corrosion resistant.
- Possibility of using the product both in water supply and heating or cooling installations.
- Special ring in PTFE to prevent galvanic corrosion between the pipe and fitting.
- Wide range of diameters from Ø 14 to 90 mm.

CARACTÉRISTIQUES

- Double joint torique garantissant l'étanchéité.
- Bague assemblée sur le raccord en inox AISI 304 avec perforation pour inspection.
- Les diamètres 16 à 26 mm sont caractérisés par la possibilité de vérifier l'étanchéité de l'installation en visualisant les fuites en cas d'absence de sertissage.
- Les diamètres 16 à 50 sont disponibles avec le profil multi empreinte H, TH, U, C.
- Réalisés en alliage spécial de laiton résistant à la corrosion.
- Possibilité d'utiliser le produit en installation sanitaire, installation de chauffage et de rafraîchissement.
- Anneau spécial en PTFE pour éviter la corrosion galvanique entre le tube et le raccord.
- Large gamme du diamètre 14 au 90 mm.

Realizzata in polipropilene grigio per l'installazione dei raccordi terminali di collegamento alle utenze del sistema Pexal. Le dimensioni contenute permettono l'installazione in qualsiasi posizione. E' realizzata in 2 gusci che permettono l'inserimento del tubo multistrato con la guaina corrugata in modo semplice e veloce. La scatola è dotata di asole laterali per il fissaggio alla parete di posa, attraverso tasselli e viti (non incluse nella confezione). Il guscio superiore è dotato di coperchio di protezione dall'intonaco durante la posa e permette l'alloggiamento di un tappo prova impianto. Nella confezione è incluso un kit di 5 viti M 3,5x10 mm, per il fissaggio dei raccordi flangiati COD. VS0131503, VS0171005, VS0171007, VS0176017, VS0171021, VS0171025, VS0171027, VS0171035.

Made of grey polypropylene for the installation of terminal fittings for connection to fixtures of the Pexal system. The compact size allows for installation in any position. It is made of two shells that allow for an easy and rapid introduction of the multilayer pipe with corrugated covering. The box has holes on the side for fixing it to the installation wall using plugs and screws (not supplied). The upper shell incorporates a covering that acts as protection during plastering and houses a system testing plug. A kit is included with five M 3.5x10 mm screws, for securing the wingback elbows COD. VS0131503, VS0171005, VS0171007, VS0176017, VS0171021, VS0171025, VS0171027, VS0171035.

Réalisée en polypropylène gris pour l'installation des raccords Pexal. Les dimensions disponibles permettent tous les modes de pose. Elle est réalisée en 2 parties favorisant ainsi la pose du tube multi couche gainé. Cette boîte est dotée de fentes latérales pour la fixation aux parois à l'aide de vis et chevilles (non fournies). La partie supérieure est dotée d'un couvercle de protection permettant d'y loger un bouchon pour mise à l'épreuve. Sont inclus dans cet emballage: 5 vis M 3,5x10 mm réf COD. COD. LA RIVOLUZIONE NEI TUBI MULTISTRATO

THE REVOLUTION IN MULTILAYER PIPES

LA RÉVOLUTION DU TUBE MULTICOUCHE

CARATTERISTICHE

- Facilità e rapidità d'installazione in ogni situazione su tubazioni già installate.
- Corpo in tecnopolimero con eccezionali caratteristiche di resistenza meccanica.
- Ghiera di bloccaggio dell'inserto filettato dotata di sistema di fine corsa.
- Agganci posti sui lati per il bloccaggio delle due parti durante la posa.
- Fori di passaggio delle viti di chiusura con speciali profili che ne evitano lo sfilamento durante la posa.
- Testato in accordo alle più severe normative internazionali sui sistemi multistrato (DVGW W542, DVGW W534, EN ISO 21003 -2 -3 e -5).
- Durabilità garantita 50 anni; consentito l'impiego a pressioni di 10 bar temperature fino a 95°C.
- Perdite di carico estremamente ridotte grazie allo speciale profilo dell'inserto in ottone.

CHARACTERISTICS

- Fast and easy installation in every situation, also on existing pipelines.
- Body in technopolymer with exceptional characteristics of mechanical resistance.
- Blocking ring nut placed on the threaded part and provided with a limit switch.
- Hooks placed on sides to block the two parts during installation.
- The blocking screws have passing holes with special profiles keeping them in place during installation.
- Tested according to the strictest international standards on multilayer systems (DVGW W542, DVGW W534, EN ISO 21003 -2 -3 and -5).
- Durability guaranteed for 50 years; it can be used with pressure of 10 bar and temperatures as high as 95°C.
- The brass part special profile reduces pressure drops to a minimum.

CARACTERISTIQUES

- Facilité et rapidité d'installation en toute situation sur des canalisations Valsir Pexal déjà installées.
- Corps en technopolymère avec d'excellentes caractéristiques de résistance mécanique.
- Anneau de verrouillage avec insert fileté doté d'un système de fin de course (butée de blocage).
- Clips permettant le blocage des 2 parties du collier pendant la mise en oeuvre.
- Trous de passage des vis de fermeture avec des profils spéciaux évitant le glissement pendant l'installation.
- Testé selon les normes internationales les plus sévères des systèmes multicouches (DVGW W542, DVGW W534, EN ISO 21003 -2 -3 e -5).
- Durée de vie garantie 50 ans avec une pression de 10 bar et des températures atteignant 95°C.
- Pertes de charge extrêmement réduites grâce au profil spécial de l'insert en laiton.

BRAVOPRESS®: RACCORDI A PRESSARE IN TECNOPOLIMERO

BRAVOPRESS®: PRESS FITTINGS IN TECHNOPOLYMER

BRAVOPRESS® : RACCORDS À SERTIR EN RÉSINE

CARATTERISTICHE

- **Compatibilità:** con un'ampia gamma di attrezzature, è possibile pressare i raccordi con i profili più diffusi sul mercato (H, TH, U, B, F, C).
- **Performance:** garanzia di tenuta grazie all'utilizzo di 2 o-ring nel portagomma.
- **Tecnologia:** realizzati in polifenilsulfone (PPSU), un tecnopolimero con elevatissima resistenza meccanica che garantisce prestazioni elevate nel tempo.
- **Affidabilità:** boccole in acciaio inox resistenti alla corrosione.
- **Resistenza Chimica:** nei confronti delle principali sostanze disciolte in acqua (in particolare cloro), cemento e calce.
- **Potabilità:** l'utilizzo di apposite materie prime ne garantisce l'impiego per l'adduzione di acqua potabile.
- **Sicurezza:** in caso di mancata pressatura, i raccordi garantiscono la segnalazione della perdita durante la prova impianto.

CHARACTERISTICS

- **Compatibility:** with a wide range of tools, the fittings can be pressed with the most widely used profiles on the market (H, TH, U, B, F, C).
- **Performance:** seal is guaranteed thanks to the use of 2 o-rings on the insert.
- **Technology:** made of polyphenylsulfone (PPSU), a technopolymer with great mechanical resistance that guarantees high performance over time.
- **Reliability:** sleeves in corrosion resistant stainless steel.
- **Chemical resistance:** to the main substances dissolved in water (in particular, chlorine), cement and lime.
- **Drinking water:** the use of certain raw materials make it suitable for drinking water supply systems.
- **Safety:** in the event of incomplete pressing the fittings guarantee detection of leakages during system pressure testing.

CARACTÉRISTIQUES

- **Compatibilité :** avec une large gamme d'outillage le sertissage des raccords est possible avec les profils les plus utilisés sur le marché (H-TH-U-B-F-C).
- **Performance :** garantie d'étanchéité grâce à l'utilisation de 2 joints toriques sur l'embout.
- **Technologie :** réalisés en polyphenylsulfone (PPSU), un polymère avec une grande résistance mécanique qui garantit des performances élevées dans le temps.
- **Fiabilité :** bagues en inox résistantes à la corrosion.
- **Résistance chimique :** en confrontation avec les principales substances dissoutes dans l'eau (en particulier le chlore), ciment et béton.
- **Potabilité :** l'utilisation de matière première adaptée autorise l'emploi pour l'alimentation en eau potable.
- **Sécurité :** en cas d'absence de sertissage, les raccords permettent de vérifier l'étanchéité lors de la mise à l'épreuve du réseau.

Realizzata in polipropilene grigio per l'installazione dei raccordi terminali di collegamento alle utenze del sistema Pexal. Le dimensioni contenute permettono l'installazione in qualsiasi posizione. E' realizzata in 2 gusci che permettono l'inserimento del tubo multistrato con la guaina corrugata in modo semplice e veloce. La scatola è dotata di asole laterali per il fissaggio alla parete di posa, attraverso tasselli e viti (non incluse nella confezione). Il guscio superiore è dotato di coperchio di protezione dall'intonaco durante la posa e permette l'alloggiamento di un tappo prova impianto. Nella confezione è incluso un kit di 5 viti M 3,5x10 mm, per il fissaggio dei raccordi flangiati COD. VS0151005, VS0151021.

Made of grey polypropylene for the installation of terminal fittings for connection to fixtures of the Pexal system. The compact size allows for installation in any position. It is made of two shells that allow for an easy and rapid introduction of the multilayer pipe with corrugated covering. The box has holes on the side for fixing it to the installation wall using plugs and screws (not supplied). The upper shell incorporates a covering that acts as protection during plastering and houses a system testing plug. A kit is included with five M 3.5x10 mm screws, for securing the wingback elbows COD. VS0151005, VS0151021.

Réalisée en polypropylène gris pour l'installation des raccords Bravopress. Les dimensions disponibles permettent tous les modes de pose. Elle est réalisée en 2 parties favorisant ainsi la pose du tube multi couche gainé. Cette boîte est dotée de fentes latérales pour la fixation aux parois à l'aide de vis et chevilles (non fournies). La partie supérieure est dotée d'un couvercle de protection permettant d'y loger un bouchon pour mise à l'épreuve. Sont inclus dans cet emballage: 5 vis M 3,5x10 mm réf COD. VS0151005, VS0151021.

PEXAL EASY®: RACCORDI A PASSAGGIO TOTALE IN TECNOPOLIMERO

PEXAL EASY®: FULL BORE FITTINGS IN TECHNOPOLYMER

PEXAL EASY® : RACCORDS À PASSAGE INTÉGRAL EN POLYMÈRE

CARATTERISTICHE

- Realizzati in polifenilsulfone (PPSU), un tecnopolimero con elevatissima resistenza meccanica.
- Totale assenza di fenomeni di ossidazione e corrosione.
- Passaggio totale dei fluidi e perdite di carico ridotte grazie al sistema di accoppiamento con il tubo che esclude restringimenti nella sezione.
- Certificazione per il trasporto dell'acqua potabile.
- Possibilità di riutilizzo del raccordo.
- Giunzione meccanica "anti errore" e sistema antisvitamento.
- Giunzione conica "anti sfilamento" con 2 o-ring di tenuta.
- Grande velocità ed estrema facilità di posa in opera.
- Il sistema elimina il problema delle corrosioni elettrochimiche dovute alle correnti vaganti.

CHARACTERISTICS

- Made of polyphenylsulfone (PPSU), a technopolymer with elevated mechanical resistance.
- Total absence of oxidation and corrosion.
- Total bore passage of fluids and reduced pressure loss thanks to the coupling system with the pipe that excludes narrowing of the section.
- Certification for transporting drinking water.
- Possibility of reusing the fitting.
- Error proof mechanical jointing and anti-unscrewing system.
- Anti-loosening conical coupling with 2 o-ring seals.
- Easily and rapidly installed.
- This system eliminates the problem of electrochemical corrosion caused by stray currents.

CARACTÉRISTIQUES

- Réalisés en polyphenylsulfone (PPSU), un polymère avec une résistance mécanique très élevée.
- Absence totale de phénomènes d'oxydation et de corrosion.
- Passage intégral des fluides et pertes de charge réduites grâce au système de raccordement avec le tube qui exclut le rétrécissement de la section.
- Homologation pour le transport d'eau potable.
- Possibilité de réutilisation du raccord.
- Raccordement mécanique "sans erreur" et système antidévissement.
- Jonction conique "antidéboîtement" avec 2 joints toriques d'étanchéité.
- Rapidité et facilité de mise en oeuvre.
- Le système élimine le problème des corrosions électrochimiques dues aux courants vagabonds.

Realizzata in polipropilene grigio per l'installazione dei raccordi terminali di collegamento alle utenze del sistema Pexal Easy. Le dimensioni contenute permettono l'installazione in qualsiasi posizione. E' realizzata in 2 gusci che permettono l'inserimento del tubo multistrato con la guaina corrugata in modo semplice e veloce. La scatola è dotata di asole laterali per il fissaggio alla parete di posa, attraverso tasselli e viti (non incluse nella confezione). Il guscio superiore è dotato di coperchio di protezione dall'intonaco durante la posa e permette l'alloggiamento di un tappo prova impianto. Nella confezione è incluso un kit di 5 viti M 3,5x10 mm, per il fissaggio dei raccordi flangiati COD. VS0161205, VS0161203, VS0161209, VS0161207.

Made of grey polypropylene for the installation of terminal fittings for connection to fixtures of the Pexal Easy system. The compact size allows for installation in any position. It is made of two shells that allow for an easy and rapid introduction of the multilayer pipe with corrugated covering. The box has holes on the side for fixing it to the installation wall using plugs and screws (not supplied). The upper shell incorporates a covering that acts as protection during plastering and houses a system testing plug. A kit is included with five M 3.5x10 mm screws, for securing the wingback elbows COD. VS0161205, VS0161203, VS0161209, VS0161207.

Réalisée en polypropylène gris pour l'installation des raccords Pexal Easy. Les dimensions disponibles permettent tous les modes de pose. Elle est réalisée en 2 parties favorisant ainsi la pose du tube multi couche gainé. Cette boîte est dotée de fentes latérales pour la fixation aux parois à l'aide de vis et chevilles (non fournies). La partie supérieure est dotée d'un couvercle de protection permettant d'y loger un bouchon pour mise à l'épreuve. Sont inclus dans cet emballage: 5 vis M 3,5x10 mm réf VS0161205, VS0161203, VS0161209, VS0161207.

PEXAL® TWIST: RACCORDI AD AVVITAMENTO IN OTTONE

PEXAL® TWIST: COMPRESSION FITTINGS IN BRASS

PEXAL® TWIST : RACCORDS À VISSAGE EN LAITON

CARATTERISTICHE

- Realizzati in lega speciale d'ottone idonea per la realizzazione di impianti sia sanitari e sia di riscaldamento.
- Velocità ed estrema facilità di posa in opera.
- L'installazione si esegue senza l'utilizzo di utensili specifici.
- Speciale anello in PTFE per evitare corrosioni galvaniche.
- Gamma di diametri dal Ø 14 al 32 mm.
- Approvato dai più importanti Istituti di Certificazione mondiali in accordo alle normative nazionali ed internazionali.

CHARACTERISTICS

- Made of a special brass alloy that is suitable for the installation of both water supply and heating systems.
- Easily and rapidly installed.
- Installation does not require the use of special tools.
- Special ring in PTFE to prevent galvanic corrosion.
- Range of diameters from Ø 14 to 32 mm.
- Approved by the most important Certification Institutes worldwide in compliance with national and international standards.

CARACTÉRISTIQUES

- Réalisés en alliage spécial de laiton approprié à la réalisation de sanitaires et de chauffage.
- Rapidité et grande facilité de pose
- L'installation s'effectue sans l'utilisation d'outils spécifiques.
- Bague spécifique en PTFE pour éviter les corrosions galvaniques.
- Gamme de diamètres de 14 à 32 mm.
- Approuvé par les plus grands Instituts mondiaux de certification conformément aux normes nationales et internationales.

Note

Tipo A: raccordo con portagomma separabile.

Tipo LGR: raccordo con portagomma fisso sul corpo del raccordo.

Note

Type A: fitting with removable insert.

Type LGR: fitting with unremovable fixed insert.

Note

Type A : raccord avec porte-caoutchouc séparable.

Type LGR : raccord avec porte-caoutchouc fixe sur le corps du raccord.

VS0104555	14-16-18-20	125	58	59,5	94,5	20

Realizzata in polipropilene grigio per l'installazione dei raccordi terminali di collegamento alle utenze del sistema Pexal. Le dimensioni contenute permettono l'installazione in qualsiasi posizione. E' realizzata in 2 gusci che permettono l'inserimento del tubo multistrato con la guaina corrugata in modo semplice e veloce. La scatola è dotata di asole laterali per il fissaggio alla parete di posa, attraverso tasselli e viti (non incluse nella confezione). Il guscio superiore è dotato di coperchio di protezione dall'intonaco durante la posa e permette l'alloggiamento di un tappo prova impianto. Nella confezione è incluso un kit di 5 viti M 3,5x10 mm, per il fissaggio dei raccordi flangiati COD. VS0101503, VS0101518, VS0101509, VS0101507, VS0101521, VS0101514.

Made of grey polypropylene for the installation of terminal fittings for connection to fixtures of the Pexal system. The compact size allows for installation in any position. It is made of two shells that allow for an easy and rapid introduction of the multilayer pipe with corrugated covering. The box has holes on the side for fixing it to the installation wall using plugs and screws (not supplied). The upper shell incorporates a covering that acts as protection during plastering and houses a system testing plug. A kit is included with five M 3.5x10 mm screws, for securing the wingback elbows COD. VS0101503, VS0101518, VS0101509, VS0101507, VS0101521, VS0101514.

Réalisée en polypropylène gris pour l'installation des raccords Pexal. Les dimensions disponibles permettent tous les modes de pose. Elle est réalisée en 2 parties favorisant ainsi la pose du tube multi couche gainé. Cette boîte est dotée de fentes latérales pour la fixation aux parois à l'aide de vis et chevilles (non fournies). La partie supérieure est dotée d'un couvercle de protection permettant d'y loger un bouchon pour mise à l'épreuve. Sont inclus dans cet emballage: 5 vis M 3,5x10 mm réf COD. VS0101503, VS0101518, VS0101509, VS0101507, VS0101521, VS0101514.
